CUMULATIVE INDEX

VOLUMES 36-45 (1961-1970)

[see Volume 35 (4), 1960, for Cumulative Index of Volumes 1–35, 1926–1960]

A

Aaronson, S., and S. H. Hutner, Biochemical Markers and Microbial Phylogeny, 41: 13–46

Abscission, leaf (B. Rubinstein and A. C. Leopold), 39: 356–372

Adaptation, community, competition (R. P. McIntosh), 45: 259–280

Adaptation of flowering plants to nocturnal and crepuscular pollinators (H. G. Baker), 36: 64–73

Adaptive value of melanin pigment, human (H. F. Blum), 36: 50–63

Adolph, E. F., Ontogeny of Volume Regulations in Embryonic Extracellular Fluids, 42: 1–39

Advances in human evolutionary studies (F. C. Howell), 42: 471–513

Africa, contemporary mammal fauna of (R. C. Bigalke), 43: 265–300

Africa, fossil mammal fauna of (H. B. S. Cooke), 43: 234–264

Age, parent and offspring (P. A. Parsons), 39: 258–275

Agoseris and *Microseris*, amphitropical species pairs (K. L. Chambers), 38: 124–140

Ahuja, M. R., Genetic Control of Tumor Formation in Higher Plants, 40: 329–340

Alexander, R. D., Life Cycle Origins, Speciation, and Related Phenomena in Crickets, 43: 1–41

Alexandrov, V. Ya., Cytophysiological and Cytoecological Investigations of Resistance of Plant Cells toward the Action of High and Low Temperature, 39: 35–77

Algal life cycles, culture methods for studying (A. W. Coleman), 36: 247–253

Allen, G. E., T. H. Morgan and the Emergence of a New American Biology, 44: 168–188

Alpine plants, seed dormancy (R. D. Amen), 41: 271–282

Amen, R. D., The Extent and Role of Seed Dormancy in Alpine Plants, 41: 271–282

American biology, T. H. Morgan and (G. E. Allen), 44: 168–188

American Type Culture Collection, history (R. E. Buchanan), 41: 101–104

American Type Culture Collection, microbiology, museums (C. Lamanna), 41: 95–97

Amino acid and protein metabolism, effects of growth hormone and insulin on (C. A. Snipes), 43: 127–147

Amphibia (modern), relationships of (T. S. Parsons and E. E. Williams), 38: 26–53

Amphibia, origin (H. Azarski), 37: 189–241

Amphibia, nuclear transplantation, nuclear changes, and differentiation in (J. B. Gurdon), 38: 54–78

Amphibian development, effect of radiation on (V. V. Brunst), 40: 1–67

Amphibian pronephros (H. Fox), 38: 1–25

Amphibians, isolating mechanisms (W. F. Blair), 39: 334–344

Amphitropical relationships in the floras of North and South America (P. H. Raven), 38: 151–177

Amphitropical relationships in the herbaceous flora of the Pacific coast [*see* Symposium], 38: 109–177

Amphitropical species pairs in *Microseris* and *Agoseris* (Compositae: Cichorieae) (K. L. Chambers), 38: 124–140

Angeletti, P. U. (with R. Levi-Montalcini), Growth Control of Sympathetic System by a Specific Protein Factor, 36: 99–108

Anoline lizards on small islands and ecology of colonization (E. E. Williams), 44: 345–389

Anurans, interspecies interactions and isolating mechanisms (W. F. Blair), 39: 334–344

Aquatic animals, zinc toxicity (J. F. Skidmore), 39: 227–248

Ascospores (dormant) of Neurospora, activation of (A. S. Sussman), 36: 109–116

XUM

Asexuality in Protozoa, emergence of (R. S. J. Hawes), 38: 234–242
Aspermia, hyperthermia, mutation rates, and evolution (R. B. Cowles), 40: 341–367
Assessment, technology (B. Glass) [Commentary], 45: 168–172
Australian mammals: zoogeography and evolution (A. Keast), 43: 373–408

B

Baker, H. G., The Adaptation of Flowering Plants to Nocturnal and Crepuscular Pollinators, 36: 64–73
Behavior, embryology of (V. Hamburger), 38: 342–365
Behavior, human sexual, ontogeny (M. Diamond), 40: 147–175
Behavior (prenatal), birds (G. Gottlieb), 43: 148–174
Behavioral development and comparative psychology (T. C. Schneirla), 41: 283–302
Bigalke, R. C., The Contemporary Mammal Fauna of Africa [Part III of Evolution of Mammals on Southern Continents], 43: 265–300
Biochemical characters of thallophytes, significance of (R. M. Klein and A. Cronquist), 42: 105–296
Biochemical markers and microbial phylogeny (S. Aaronson and S. H. Hutner), 41: 13–46
Biological aspects of technology assessment (B. Glass) [Commentary], 45: 168–172
Biological foundations of animal patterns (K. C. Sondhi), 38: 289–327
Biology (molecular) and microbiology (C. B. van Niel), 41: 105–112
Biology of the parasitic wasp (*Mormoniella vitripennis* Walker) (A. R. Whiting), 42: 333–406
Biophysics (cellular), Soviet (R. B. Setlow and J. K. Setlow), 36: 1–49
Biota of long-distance dispersal (S. Carlquist), 41: 247–270
Bird navigation, physiology and geophysics of (D. R. Griffin), 44: 255–276
Birds, prenatal behavior (G. Gottlieb), 43: 148–174
Bison evolution and zoogeography in North America during the Pleistocene (R. D. Guthrie), 45: 1–15
Blair, W. F., Foreword [Part 1 of a series on Evolution at Populational and Interpopulational Levels], 39: 333
——, Isolating Mechanisms and Interspecies Interactions in Anuran Amphibians [Part 2 of a series on Evolution at Populational and Interpopulational Levels], 39: 334–344
Blennospema, experimental studies (R. Ornduff), 38: 141–150
Blum, H. F., Does the Melanin Pigment of Human Skin Have Adaptive Value? An Essay in Human Ecology and the Evolution of Race, 36: 50–63
Brink, R. A., Phase Change in Higher Plants and Somatic Cell Heredity, 37: 1–22
Brunst, V. V., Effects of Ionizing Radiation on the Development of Amphibians, 40: 1–67
——, Some Problems of Regeneration, 36: 178–206
Buchanan, R. E., History and Development of the American Type Culture Collection [Part III of Symposium on Stability in Dynamic Microbial Systems], 41: 101–104
Burch, P. R. J., and R. G. Burwell, Self and Not Self: A Clonal Induction Approach to Immunology, 40: 252–279
Burwell, R. G. (with P. R. J. Burch), Self and Not Self: A Clonal Induction Approach to Immunology, 40: 252–279
Butler, W. L., Dark Transformations of Phytochrome in Vivo [Part II of Symposium on Photomorphogenesis in Plants], 39: 6–10
——, Introduction [Part I of Symposium on Photomorphogenesis in Plants], 39: 1–5

C

Carbohydrate changes, etiolated leaf (L. Price, K. Mitrakos, and W. H. Klein), 39: 11–18
Carlquist, S., The Biota of Long-Distance Dispersal. I. Principles of Dispersal and Evolution, 41: 247–270
Cell, evolution from primordial living systems (E. D. Hanson), 41: 1–12
Cellular biophysics, Soviet (R. B. Setlow and J. K. Setlow), 36: 1–49
Cellular chemotropism and chemotaxis (W. G. Rosen), 37: 242–259
Cestoda, organization, ontogeny, and orientation (H. W. Stunkard), 37: 23–34

Chambers, K. L., Amphitropical Species Pairs in *Microseris* and *Ageseris* (Compositae: Cichorieae) [Part 3 of Symposium on Amphitropical Relationships in the Herbaceous Flora of the Pacific Coast of North and South America], 38: 124–140

Characterization of tissue culture cells (C. S. Stulberg and W. D. Peterson, Jr.), 41: 124–130

Chemotaxis, cellular (W. G. Rosen), 37: 242–259

Chemotropism, cellular (W. G. Rosen), 37: 242–259

Chromosome (X) of man (V. A. McKusick), 37: 69–175

Chronosequence concept and soil formation (P. R. Stevens and T. W. Walker), 45: 333–350

Classification of Fungi Imperfecti, theoretical bases (E. G. Simmons), 41: 113–123

Clonal induction, immunology (P. R. J. Burch and R. G. Burwell), 40: 252–279

Cock, A. G., Genetical Aspects of Metrical Growth and Form in Animals, 41: 131–190

Cohen, B. H., Family Patterns of Mortality and Life Span, 39: 130–181

Coleman, A. W., The Role of Modern Culture Methods in the Study of Algal Life Cycles, 36: 247–253

Colonization, ecology of, in anoline lizards (E. E. Williams), 44: 345–389

Compatibility in rusts, genetic control (A. L. Flangas and J. G. Dickson), 36: 254–272

Coming search for life on Mars (C. Ponnamperuma and H. P. Klein), 45: 235–258

Commentary:

Biological Aspects of Technology Assessment (B. Glass), 45: 168–172

Critical State of the Critical Review Article (B. Glass), 39: 181–185

Science and the Race Problem [A Report of the AAAS Committee on Science in the Promotion of Human Welfare] (introduction by B. Glass), 38: 366–371

Community, competition, and adaptation (R. P. McIntosh), 45: 259–280

Comparative psychology and behavioral development (T. C. Schneirla), 41: 283–302

Comparisons of the contemporary mammalian faunas of the southern continents (A. Keast), 44: 121–167

Compensatory growth, kinetics (R. J. Goss), 40: 123–146

Competition, adaptation, community (R. P. McIntosh), 45: 259–280

Complementary genetic control of differential compatibility in rusts (A. L. Flangas and J. G. Dickson), 36: 254–272

Compositae: Cichorieae (K. L. Chambers), 38: 124–140

Compositae: Heleniae (R. Ornduff), 38: 141–150

Conducting tissues, evolution of (G. O. Mackie), 45: 319–332

Conduction (neuroid) and evolution of conducting tissues (G. O. Mackie), 45: 319–332

Consideration of the evolutionary and taxonomic significance of some biochemical, micromorphological, and physiological characters in the thallophytes (R. M. Klein and A. Cronquist), 42: 105–296

Constance, L., Introduction and Historical Review [Part 1 of Symposium on Amphitropical Relationships in the Herbaceous Flora of the Pacific Coast of North and South America], 38: 109–116

Contemporary mammal fauna of Africa (R. C. Bigalke), 43: 265–300

Contemporary mammalian faunas of the southern continents, comparisons (A. Keast), 44: 121–167

Control (genetic) of differential compatibility in rusts (A. L. Flangas and J. G. Dickson), 36: 254–272

Control of vertebral number in teleosts—an embryological problem (J. A. Fowler), 45: 148–167

Cooke, H. B. S., The Fossil Mammal Fauna of Africa [Part II of Evolution of Mammals on Southern Continents], 43: 234–264

Cowles, R. B., Hyperthermia, Aspermia, Mutation Rates and Evolution, 40: 341–367

Crickets, life cycle origins and speciation (R. D. Alexander), 43: 1–41

Critical evaluation of the ontogeny of human sexual behavior (M. Diamond), 40: 147–175

Critical state of the critical review article (B. Glass) [Commentary], 39: 181–185

Cronquist, A. (with R. M. Klein), A Consideration of the Evolutionary and Taxonomic Significance of Some Biochemical, Micro-

XUM

morphological, and Physiological Characters in the Thallophytes, 42: 105–296

Cryptic species among sound-producing ensiferan Orthoptera (Gryllidae and Tettigoniidae) (T. J. Walker), 39: 345–355

Culture methods, role in the study of algal life cycles (A. W. Coleman), 36: 247–253

Cytoecological investigations, temperature resistance in plants (V. Ya. Alexandrov), 39: 35–77

Cytophysiological and cytoecological investigations of resistance of plant cells toward the action of high and low temperature (V. Ya. Alexandrov), 39: 35–77

Cytokinesis, mechanisms (H. S. Roberts), 36: 155–177

D

Dark transformations of phytochrome in vivo (W. L. Butler), 36: 6–10

DeBell, J. T., A Long Look at Neuromuscular Junctions in Nematodes, 40: 233–251

Demography of frogs and toads (F. B. Turner), 37: 303–314

Development, amphibian, effect of radiation on (V. V. Brunst), 40: 1–67

Development (behavioral) and comparative psychology (T. C. Schneirla), 41: 283–302

Development (neurobehavioral) and the genotype-environment interaction (M. W. Fox), 45: 131–147

Development, nucleic acids and (F. J. Finamore), 36: 117–122

Dew, ecological importance (E. C. Stone), 38: 328–341

Diamond, M., A Critical Evaluation of the Ontogeny of Human Sexual Behavior, 40: 147–175

Dickson, J. G. (with A. L. Flangas), Complementary Genetic Control of Differential Compatibility in Rusts, 36: 254–272

Differentiation (cellular) in Amphibia (J. B. Gurdon), 38: 54–78

Differentiation in cellular slime molds, time sequences for (D. Francis), 44: 277–290

Dispersal and evolution, principles of (S. Carlquist), 41: 247–270

Dispersal, long-distance (S. Carlquist), 41: 247–270

Does the melanin pigment of human skin have adaptive value: An essay in human ecology and the evolution of race (H. F. Blum), 36: 50–63

Dormancy (seed) in alpine plants (R. D. Amen), 41: 271–282

Drosophila, hybrid sterility as an isolating mechanism in (L. Ehrman), 37: 279–302

E

Ecological importance of dew (E. C. Stone), 38: 328–341

Ecology (human) and evolution of race (H. F. Blum), 36: 50–63

Ecology of colonization as seen in the zoogeography of anoline lizards on small islands (E. E. Williams), 44: 345–389

Ecology of mammals of the Neotropical Region (P. Hershkovitz), 44: 1–70

Effects of chronic gamma irradiation on plant communities (G. M. Woodwell and R. H. Whittaker), 43: 42–55

Effects of growth hormone and insulin on amino acid and protein metabolism (C. A. Snipes), 43: 127–147

Effects of ionizing radiation on the development of amphibians (V. V. Brunst), 40: 1–67

Efficiency (photosynthetic) of forests (H. Hellmers), 39: 249–257

Effluents (polluted), phosphorus in (E. G. Srinath and S. C. Pillai), 41: 384–407

Ehrman, L., Hybrid Sterility as an Isolating Mechanism in the Genus *Drosophila*, 37: 279–302

Embryonic extracellular fluids, ontogeny of volume regulations in (E. F. Adolph), 41: 1–39

Energy exchange and transpiration (D. M. Gates), 41: 353–364

Embryology of behavior (V. Hamburger), 38: 342–365

Emergence of asexuality in Protozoa (R. S. J. Hawes), 38: 234–242

Ensiferans (Orthoptera), cryptic, sound-producing (T. J. Walker), 39: 345–355

Etiolated leaf tissue, photomorphogenesis and carbohydrate changes in (L. Price, K. Mitrakos, and W. H. Klein), 39: 11–18

Evaluation of the photosynthetic efficiency of forests (H. Hellmers), 39: 249–257
Evolution at Populational and Interpopulational Levels [a series], 39: 333–355
1. Foreword (W. F. Blair), 39: 333
2. Isolating Mechanism and Interspecies Interactions in Anuran Amphibians (W. F. Blair), 39: 334–344
3. Cryptic Species among Sound-Producing Ensiferan Orthoptera (Gryllidae and Tettigoniidae) (T. J. Walker), 39: 345–355
Evolution, bison (R. D. Guthrie), 45: 1–15
Evolution, dispersal and (S. Carlquist), 41: 247–270
Evolution, human (F. C. Howell), 42: 471–513
Evolution, hyperthermia, aspermia, mutation rates (R. B. Cowles), 40: 341–367
Evolution of the cell from primordial living systems (E. D. Hanson), 41: 1–12
Evolution of conducting tissues, neuroid conduction and (G. O. Mackie), 45: 319–332
Evolution of hermaphroditism among animals (M. T. Ghiselin), 44: 189–208
Evolution of Mammals on Southern Continents [a series], 43: 225–300; 373–451; 44: 1–70; 121–167
I. Introduction: The Southern Continents as Backgrounds for Mammalian Evolution (A. Keast), 43: 225–233
II. The Fossil Mammal Fauna of Africa (H. B. S. Cooke), 43: 234–264
III. The Contemporary Mammal Fauna of Africa (R. C. Bigalke), 43: 265–300
IV. Australian Mammals: Zoogeography and Evolution (A. Keast), 43: 373–408
V. The Fossil Mammal Fauna of South America (B. Patterson and R. Pascual), 43: 409–451
VI. The Recent Mammals of the Neotropical Region: A Zoogeographic and Ecological Review (P. Hershkovitz), 44: 1–70
VII. Comparisons of the Contemporary Mammalian Faunas of the Southern Continents (A. Keast), 44: 121–167
Evolution of race, adaptive value of melanin pigment in human skin (H. F. Blum), 36: 50–63
Evolution, thallophyte (R. M. Klein and A. Cronquist), 42: 105–296
Experimental studies in two genera of Heleniae (Compositae): *Blennosperma* and *Lasthenia* (R. Ornduff), 38: 141–150
Extent and role of seed dormancy in alpine plants (R. D. Amen), 41: 271–282

F

Family patterns of mortality and life span (B. H. Cohen), 39: 130–181
Finamore, F. J., The Nucleic Acids—Metabolic Key to Development?, 36: 117–112
Fish, zinc toxicity (J. F. Skidmore), 39: 227–248
Flangas, A. L., and J. G. Dickson, Complementary Genetic Control of Differential Compatibility in Rusts, 36: 254–272
Flora (herbaceous) of Pacific coast, amphitropical relationships of [symposium], 38: 109–177
Floras of North and South America, amphitropical relationships (P. H. Raven), 38: 151–177
Forests, photosynthetic efficiency (H. Hellmers), 39: 249–257
Form, growth and (A. G. Cock), 41: 131–190
Fossil mammal fauna of Africa (H. B. S. Cooke), 43: 234–264
Fossil mammal fauna of South America (B. Patterson and R. Pascual), 43: 409–451
